How Flair Airlines Seat Selection Works

When flying with Flair Airlines™, passengers have several options to choose their seats:

1. During Booking

While booking your flight online, you'll see a seating chart showing available seats. Select the seat you prefer and save your choice before finalizing your reservation. This gives you the **widest selection of seats early on**.

2. After Booking – Manage Trip

If you forgot to choose a seat at the time of booking, you can still do it later by accessing "Manage Trip" on the Flair Airlines website or mobile app. Enter your booking code and last name to view and pick from available seats.

3. During Check-In

If you didn't select a seat earlier, you can still choose during check-in, which opens **24 hours before departure**. If no choice was made previously, Alaska will assign a seat, but you can still often change it if others are available.

Pro Tip: Always choose your seat as early as possible to ensure the best options — especially if you're traveling with family or need special seating.
